PRICE THREE CENTS

SEALED PROPOSALS!

TO PRINTERS, BOOKBINDERS AND STATIONERS.

HERRARD OF PUBLIC PRINTING, BINDING AND STATIONERY, INDIANAPOLIS, July 20, 1885. The Board of Commissioners of Public Printing, Binding and Stationery, will, in accordance with an act of the General Assembly, approved April 13th, 1885, receive sealed proposals, until the

1st day of September, 1885, and up to the hour of 11 o'clock a. m. of that day, for doing the Public Printing, and furnishing the Stationery for the use of the State of Indiana, for two years, commencing on the 1st day of October, 1885.

At the date and hour above stated, in the office of the Auditor of State, the sealed proposals will be opened, and contract will be awarded to the lowest and best bidder, according to law, but no proposal will be considered unless it is properly sealed and classified.

The work will be divided into three classes, as specified by the law as follows:

The first class shall comprise the laws, journals, reports of officers and public institutions, and all books and pamphlets work to be printed on book or pamphlet paper.

The second class shall comprise all legislative bills, commissions, letter heads, circulars, blank and other work usually executed on writing paper and all articles of stationery.

The third class shall comprise the folding, stitching, covering and binding, and all work belonging to the binding business.

Parties making bids will be required to accompany their sealed proposals with samples of every description of paper, named in said proposals, giving name and weight of same, or otherwise designating means for making comparisons and estimating value.

The contractor will be required to give bond in the sum of \$25,000, with approved security for the faithful performance of all work which may be awarded him, and that, in every instance, the paper shall be in color and quality the same as the sample furnished.

Specifications and full particulars in regard to the work can be obtained of J. H. Wayland, clerk of the Board of Public Printing, Binding and Stationery, at the office of the secretary of state, and the contractor must be to do the work according to specifications.

The board of commissioners reserves the right to reject any and all bids that may be offered.

The sealed proposals must be addressed to W. R. MYERS, secretary of state and ex-officio secretary of the board.

HIS COMRADES.

Military Arrangements for General Grant's Funeral.

By Telegram to THE SENTINEL.

New York, July 29.—Gen. Daniel E. Sickles was closeted this morning with General Hancock in reference to the department of veteran army officers, of which the general has charge.

Col. Fred Grant sent a telegram stating that his father had been commander of the loyal legion and requested that members of that organization be given as prominent a position as possible.

H. M. Nevins, state commander of the Grand Army of the Republic of New Jersey, by request of Governor Abbott, tendered a brigade of the national guards for escort.

Gen. S. S. Burdette, commander in chief of the Grand Army of the Republic, in answer to a dispatch from General Hancock, stated that he would command in person the Grand Army of the Republic at the funeral.

CHICAGO'S STATUE.

Chicago, July 29.—Fifteen thousand dollars has already been subscribed toward an equestrian statue of General Grant in this city.

THE BURIAL PLACE.

Philadelphia, July 29.—George W. Childs says it is useless to urge the family of General Grant to change the place from Riverside Park, New York.

Riverside Park is on the Hudson river and is not connected with Central Park.

THE UNITED STATES SENATE.

Washington, July 29.—The following named senators, who were requested by the vice president to represent the senate at General Grant's funeral, have notified Colonel Canaday, sergeant-at-arms, of their intention to attend the funeral.

Justin S. Morrill, John Sherman, John A. Logan, Matt W. Hanson, John J. Spaulding, Francis M. Cockrell, Wade Hampton, Joseph E. Brown and Charles F. Manderson. Vice President Hendricks will also be with them.

MONUMENT COMMITTEE.

New York, July 29.—The Grant monument fund committee made a permanent organization. Chester A. Arthur, president; Mayor Grace and Hamilton Fish, vice-presidents; Trevel Morgan and Co., treasurers; Mr. Grenier, secretary. The first contribution was received to-day, fifty cents by a lady.

GENERAL HANCOCK'S ARRANGEMENTS.

New York, July 29.—General Hancock announced to-night that these arrangements had been decided upon: The fourth artillery of Fort Adams, under Major Adams, will fire a salute at Mt. McGregor; and Major Randolph, commanding the Fifth artillery at Fort Hamilton, will fire the final salute on the day of the funeral.

General Sherman, who will proceed to Mt. McGregor on the night of August 2d, and the remains will be conveyed by a train, consisting of a car for the family, one for the remains, two for the escort, which will number not more than sixty men, one for the clergy and pall bearers, one for General Hancock and staff and one for the press.

The first stop will be made at Saratoga and the second at Albany. At the latter place Adjutant-General Farnsworth will assume charge of removing the remains to the capital, where Governor Hill assumes control. From Albany to this city the remains will be in the care of General Hancock. After having arrived here at City Hall a guard will be placed until the day of the funeral.

THE NATIONAL MONUMENT.

New York, July 29.—In response to a circular sent out by Mayor Grace last week about thirty representative New Yorkers met at the mayor's office this afternoon to form a national monument committee. Among them were: ex-President Arthur, George Jones, of the Times; ex-Major Wickham and ex-Governor A. B. Cornell. Ex-President Arthur was elected temporary chairman. Joseph Seligman moved that he be made permanent chairman, but Mr. Arthur declined. A resolution was passed inviting the people of the United States to

send contributions to the mayor of New York to aid in the erection of a monument to General Grant. The committee to prepare a plan of permanent organization was also appointed.

MEMORIAL SERVICE AT INDIANAPOLIS.

Indianapolis, July 29.—The Grand Army posts in this city united in memorial service at English's opera house to-night. The memorial was read by Judge W. D. Howe, and addresses were made by Ex-Congressman Pelee, Judge Coburn, of Montana, and others.

GOVERNOR GRAY'S PROCLAMATION.

Indianapolis, July 29.—Governor Gray was absent from the city at the time of Grant's death and did not return until to-night. At once, on his arrival, he issued a proclamation announcing the general's death and recommending a general suspension of business on the day of the funeral.

DISSENT AT WASHINGTON.

Washington, July 29.—A meeting of citizens was held to-night to protest against the proposed burial of General Grant in Riverside Park, New York City. Among those present were ex-Congressman Dependorf, of Louisiana, who presided; General Whittaker, Honorable A. M. Capps and Dr. Bliss. The committee on resolutions presented a large preamble and resolutions, which were unanimously adopted, protesting against the interment of General Grant in Central or Riverside Park, New York, on the grounds that the selection of a place of interment for this purpose was inappropriate. A committee was appointed to wait upon the Grant family at Mt. McGregor with a view to having the burial place changed from Riverside park to Washington.

THE FUNERAL PROCESSION.

New York, July 29.—General Perry said that arrangements for the Grant procession would not be completed for two or three days. Military and civic organizations, as well as Grand Army posts from nearly every state in the Union, had applied for positions in the line. The Grand Army will be arranged in a solid body divided into four or five divisions. In the first and second divisions the National Guards State of New York will form a prominent feature. Three military organizations from Illinois have already given notice that they will be present. It is requested that all civic and military organizations desiring to take part in the parade will report at once to General Hancock at Governor's Island.

UNITED STATES REPRESENTATIVES.

Washington, D. C., July 29.—General John B. Black, clerk of the representatives has designated and requested the following named committee to represent that body at the funeral of General Grant: Honorable John G. Carlisle, of Kentucky; Samuel K. Handall, of Pennsylvania; William R. Morrison, of Illinois; J. Randolph Tucker, of Virginia; O. R. Singleton, of Mississippi; Frank Hiseock, of New York; Thomas B. Reed, of Maine; Thomas W. Brown, of Indiana; and Benjamin Butterworth, of Ohio. These gentlemen will be requested by the mayor to meet in New York city on the 7th of August at some hotel, not yet determined.

A DESCRIPTION OF RIVERSIDE.

New York, July 29.—The site chosen for General Grant's tomb is on a sort of promontory on the Hudson river, and is the highest point in Manhattanville. The outward swell of the promontory begins at Twenty-second street and the river bank returns to its right. On a line with 129th street the summit of this elevation is an almost level plateau of more than twenty acres. The river descends is abrupt. At its foot, 200 feet below, are the tracks of the branch of the Hudson River railroad that runs into the West Thirtieth street depot. On the northwest is a ferry to Fort Lee and on the north and northeast the red brick stores, houses and manufactories of Manhattanville cluster around on the base of the hill. If an observer looks to the south he has opened before him the long vista of Riverside park, of its lawns, hewn stone walls and ancient oaks and maples on the steep slopes of the Hudson. The spot suggests revolutionary war memories. Fort Lee is opposite. The old fort in Central Park is on the southeast. Fort Washington is on the north and the highlands near West Point shut in the horizon beyond. No structures can be erected to break the uniformity of the view.

The Daily Sentinel. WEDNESDAY, JULY 29, 1903. The King Has Come. And his name is on the outer wall. Red Letter SALE TILL AUGUST 15. The great public benefit sale to go on till August 15. We don't need to tell you how cheap the stock is being sold, for 'tis known to every man, woman and child. SAYS, PETER & MAX. 10-14-17 **THE CITY.** Dan Quinn, of Chicago street, is quite sick. Cholera infantum rages in the south part of the city. George Mackey is now regularly em- ployed at city hall. There were two emigrant trains on the Pittsburg road last night. The new bridge over the feeder canal, near the French brewery, is now finished. Hon. and Mrs. O. P. Morgan are in the east and will pass some time at the coal resorts. Mr. Simon, senior member of the firm of Simon Bros., left for Buffalo this morning. If the Pennsylvania railroad increases the emigrant rate from \$1 to \$1.25, travel this way will fall off. William Barner, division freight agent of the Pittsburg road, arrived here this afternoon from Chicago. Deputy Marshal Jesse Patton has not been on duty for a few days, owing to the sickness of his wife. Al Flinn now has supervision of the Scott Bill Paving company, controlled by Mrs. Fletcher. Col. Scott is on his farm. Sam Bar went his friend John Hance's fine fish from Pleasant Lake yesterday. The specimen weighed eight pounds and measured three feet in length. Young Touge, who was dying the other day from the effects of a blow by Wm. Schubert, is now out again. His head is not right and will eventually kill him. The Dearborn foundry, of Chicago, will put in the iron beams at the new government building here. The work was advertised for in THE SENTINEL by Government Architect Bell. The moon disappeared last night at 11 o'clock. Capt. Diehl promptly tele- phoned for electric lights and in four and a half minutes from the time he rang the bell the city was almost as light as day. Halle, the Huntington forger, will have a preliminary hearing to-morrow if John Leichter returns. The saloon man is the prosecuting witness, but he is fishing at St. Clair Flats, near Detroit, and the law can't grasp him. Hon. Wm. H. Dills, of Auburn, is the guest of his brother, Dr. T. J. Dills, Mr. Dills is prominent in Indiana poli- tics and was a democratic elector from this state in the college that declared Cleveland and Hendricks the winners. Mr. T. E. Ellison, his little daugh- ters, and sisters, the Misses Ellison, left today for an extended pleasure tour. They will go down the St. Lawrence to Quebec, stopping at Montreal en route, and will then make a new voyage to Hal- ifax and Portland, remaining in the lat- ter place for three weeks or more. Dr. C. B. Stenzen was at Peru yester- day, where, with Dr. Jackson, he exam- ined the new Walsh hospital which will be opened next week. Dr. Jackson says the hospital would have been estab- lished here but for an attack made on it by the News. Mr. Talmage remarked when he read the paper: "Put it at Peru; they would burn it down at Fort Wayne." The report of the state board of health for 1903 has just been issued in book form. It covers 155 pages and is com- plete in every respect, giving a financial exhibit of the work and condition of the board, an inventory of the property be- longing to the same, verbatim reports from the several local health officers of the state, together with statistical data substantiated and arranged as to be of great benefit to the student of public health statistics. It also contains a series of interesting and instructive papers con- tributed by gentlemen of recognized ability and worth in the several profes- sions. Dr. H. V. Sweringen, of West Wayne street, is one of the contributors. A Fort Wayne physician wrote At- torney General Ford, asking what charges county clerks are legally en- titled to in the matter of issuing certifi- cates of license to physicians under the new medical law. Judge Ford has not yet given an official opinion on the mat- ter, but the prevalent view taken by legal gentlemen who have investigated it seems to be that the clerk is allowed \$1.50 for issuing, recording and indexing the license, and the regular statutory charge, which is 50 cents, for making the affidavit of qualification, if the appli- cant desires him to do it, but the law does not require the clerk to make this for the applicant, as his attorney or any body else can do this for him. Mrs. G. E. Burley will leave to-mor- row for Providence, Rhode Island, to visit relatives. Jackie Siebold is at Indianapolis hol- idaying with the big guns. Mr. Siebold will return Friday. Farmers are threshing wheat and the whir of portable engines and crack of jill corks are heard. The Toledo Bee has this personal item: "Mrs. Gus Rabins, of Fort Wayne, is the guest of Mrs. W. W. Reed, this week." Justice Ryan will give his decision in the case of David Tagtmeyer to-morrow. The man is guilty of obstructing Cass street. Mrs. Lillie Dunn, nee Dunley, of St. Louis, will arrive in the city next week to spend a month visiting relatives and friends. Catherine Vanholzer has been per- mitted to erect an addition to her home on lot 4, Riedmiller's addition, at a cost of \$100. Miss Wilson, daughter of O. J. Wil- son, chief clerk under Master Mechanic Morris, went to Boston last night to visit friends. The gay peeders are ready for their picnic Friday, and will make a nice thing out of the trip. The proceeds go towards uniforming the boys. The Lafayette Courier: "Miss Emma Falk, of Fort Wayne, who has been vis- iting the Misses Sallie and Emma Bal- lenger, returned home last evening." Governor Gray has ordered all guns now in the hands of companies not in the service of the state shipped to the Arsenal at once. The guns here are in use. There were two drunks locked up last night. Bob Irwin, an old unfortunate, was let go and at last accounts the other prisoner was not sober enough to be tried. The Huntington News says: "W. W. Sheldon, of Fort Wayne, was in the city today. — Chas. Ashley and Jacob Wey- er, of Fort Wayne, were in the city this morning." Christian Starke and Wilhelmina Bohnhart, Enoch Elliott and Maggie Black have been licensed to wed. The hot weather did not interfere with these loving hearts. If the Emmett Guards, of Jackson, play "Robert Emmett" at Library hall during the forthcoming encampment, it will be for the benefit of the Ladies' Re- lief Corps, of the G. A. R. Judge Hench gave these judgments yesterday: William Sargent, jr., against Louisa A. Moore for \$18.63, and Joseph H. Taylor against the Rickford Furni- ture company, for \$240.43. The indications for the lower lake re- gion, as reported by the weather bureau at Washington to THE SENTINEL are as follows: Occasional local showers, winds variable, stationary temperature. Seventy-two new water connections have been put into homes and business houses so far this year. This is more than was accomplished all last year and indicates that the water works are grow- ing in popularity yearly. The infant child of Rev. A. Biewend, of Boston, died yesterday morning at the residence of Dr. Charles Schmitz. The funeral will take place from the residence to-morrow afternoon, Prof. August Croll, of Concoria college, officiating. In accordance with the proclamation of Mayor Muhler the city hall, engine house and city prison are being tastily draped in mourning in honor of General Grant. The court house will probably be decorated if the commissioners are called together. The interior of the county clerk's office is tastily draped. The new medical law makes it un- lawful for traveling quacks and street vendors to sell medicines within the state without first getting a license, which will be impossible for them to do in the face of the fact that they are sharks and impostors. A law against antineers and people who peddle wares from house to house and town to town is next need- ed. The thirty-ninth anniversary of Raper commandery, Knights Templar, of In- dianapolis, will be celebrated in that city October 16. There will be a grand cele- bration, in which all the commanderies of the state, and St. Bernard, of Chicago; DeMolay, of Louisville, and Reed com- mandery, of Dayton, will participate. The Fort Wayne commandery has been invited and will attend in their custom- ary magnificence. The Fort Wayne Sir Knights make as fine an appearance as any in the land and everywhere are they honored. Dr. H. V. Sweringen, secretary of the county board of health, says that im- moderate street sprinkling is very com- mon in the city and productive of un- pleasant results in various ways. Many of the crows are kept wet and muddy, dirty pools are left standing in the streets, and in addition to this, there is much real danger in the propagation of disease germs which, if allowed to re- main dry, would soon die of inanition. Judicious and intelligent sprinkling of streets and yards, he thinks, will do no harm, but what he particularly objects to is the useless drenching of the high- way. There is a corner on lemons in this country now. The price increased \$3 a box in the last week. All is quiet in the Wabash shops here. The men have received no word to strike and will not quit work if they do. A young boy named Volz, employed by J. W. Vordermark, was shot by a companion last Sunday. The matter has been hushed and called accidental. Postmaster Kaough expects to take charge of his office next Friday evening at 7 o'clock. P. W. Kiel, the retiring officer, is at Rome City and must come here in person or send a written order before his assistant, D. A. Woodworth, can give Mr. Kaough control. Mr. Kaough has not named his deputy. The gentlemen heretofore mentioned are not now in the race. The Pennsylvania Railroad company is doing a large amount of masonry work this summer. For the last ten years they have been letting out all this class of work by contract. This seems to have been a short sighted policy, and they are now suffering from the poor work done in several instances. This summer, therefore, they have again commenced to do the work themselves. **A FAMOUS ARTIST.** Mons. Phillippette Vaane, the Great French Artist, has Arrived in Fort Wayne. This eminent artist, not of western notoriety, but of world renowned fame, has concluded to pay our city a brief professional visit, allowing our citizens an opportunity to secure some rare pro- ductions of the photographic art. Mons. de Vaane was last known to be in one of the leading houses of New York City, but was influenced by one of our leading citizens to come to Fort Wayne, and was immediately secured by one of our well known photographers. It is hoped our people will be generous in their support as it can be imagined that a great artist like Mons. de Vaane could not be induced to remain in so small a city for less than \$15 a day. This eminent artist has no equal in controlling light, shade and posture, and his gentlemanly manners win for him the esteem of both old and young. Mons. de Vaane can be seen each day in the week at the Star gallery, at No. 16 West Berry street, where all lovers of art and photography are invited to call and see the elegant photos made at the Star gallery, and make the acquaint- ance of Mons. de Vaane. Engraver invited to sit for photo- graphs. **COUNCIL GOSSIP.** A new safe vault is to be built for the treasurer's tax books. Contractor Meyers will get the Sev- enth ward engine house contract. Jack Kenall is the orator of the coun- cil and a pretty square man for the tax payers. Councilman Michael is struggling with Councilman Mohr for the leader- ship of the council. John Mohr is the polished talker of the council. He never loses his head in debate, and commands the choicest lan- guage. Mayor Muhler opened up on negli- gent contractors last night, and the re- sult was a resolution denying roughish people the right to bid on city work. Dr. Metcalfe wants his salary in- creased to \$800 a year. The poundmaster asked an increase, but instead was told by the council to bestir himself and work. Councilman Michael is the watch dog of the treasury. He asked how much the Grant decorations would cost, and in fact he does that with everything that comes up. Councilman John Mohr asks us to deny that anyone attempted to bulldoze him on the electric light question. The Journal's stories, he says, are manufac- tured from whole cloth. All the bad sewer work, now being exposed, was done under former civil en- gineers. None of it occurred under Mr. Goshorn. The trouble is the council gives out more work than a dozen en- gineers can properly look after. The electric light contract was ap- proved by a vote of eleven to seven. Councilmen Mohr, Doehman, Michael and Truesell spoke against the electric light, and Councilmen Prentiss, Kenall, Wouffe and Scheil favored it. Only one man, Councilman Goeke, changed his vote since the last meeting. The electric light men were in the lobby, but not a gas man could be seen. The bids for printing an index to the council proceedings were opened. Nine of them exceeded \$100. City Clerk Backhill has prepared a nice copy of the index of the council proceedings. Tax payers can go to city hall, ask what they want and by referring to the index it points to the council action or proceed- ing in the matter, making the business of the city open and clear to all people. For former indexes the city paid \$600 and \$500 extra. Mr. Backhill quickly did the work, asked not a penny and gave it to the council.

UNCLE SAM'S DOMAIN. The Eleventh Revenue District and Its Perquisites and Patronage. The recent appointment of J. O. Hen- derson, of Kokomo, revenue collector for this, the Eleventh district, is not understood by all people. It differs from the congressional district, which has but a few counties, while the Ele- venth Indiana Revenue district comprises thirty-nine counties, or nearly the entire northern half of the state. It includes the Tenth, Eleventh, Twelfth and Thir- teenth congressional districts entire and a portion of the Ninth, Sixth and Fourth. While it is the largest district in the state, its collections are the small- est, owing to the almost total absence of distilleries. It pays about \$3,000,000 per annum while each of the others pays \$4,000,000 per annum. The headquarters is at Ko- komo. There are four deputies connect- ed with the home office and three divi- sion deputies—at Fort Wayne, South Bend and Richmond. The stamp office at Logansport has recently been abol- ished. In all there are about twelve men connected with the office as deputies, storekeepers, gaugers, etc. The present incumbent, Captain Kirkpatrick, has held the office for two years and four months, having been appointed by Pres- ident Arthur. Coming to See Our Light. The Huntington Herald says: "The street light committee of the city com- mon council has been authorized to visit Logansport and Fort Wayne for the purpose of investigating the electric light, as used in those places for street lighting purposes. We learn that it is proposed to make a thorough examina- tion of the matter before adopting any light, and we may add that nothing short of this will be satisfactory to the people." Lighthall in Trouble. The Indianapolis Times says: "Dr. Lighthall was yesterday fined \$20 and costs by Justice Johnston for failing to take out a physician's license. Jane Brandon has caused Lighthall on a complaint before Justice Johnston for \$200 damages for breaking a tooth in at- tempting to extract it." Will Shambaugh and Elias Bolyard returned from Rome city at noon. Gasoline Stoves changed to Gas Burn- ers, at 75 cts. per burner, by Gas Com- pany. 2-11 Cigarette smokers who are willing to pay a little more than the price charged for the ordinary trade cigarettes, will find the Richmond Straight Cut Cigar- ettes far superior to any others. Go to Ice Cream Social to-morrow evening at Christian chapel. Housed Up. For the last three months a great many people have been housed up, because they have not felt able to withstand the stormy wintry weather that has pre- vailed. But unfortunately the confine- ment and the close air of modern houses during the winter season is very enerv- ating, and the system needs help to enable all the organs to do their proper work. If these organs have been inac- tive, the consequences are showing them- selves in the bilious condition of the sys- tem, or in constipation of the bowels, or in disorders of the kidneys, with all the aches and pains that accompany these complaints. If you are in this condition from any cause you should make a faith- ful trial of that well known remedy Kid- ney-Wort. It acts at the same time on the kidneys, liver and bowels, and is, therefore, especially fitted to correct this torpid condition of the system. Petoskey Fish. R. Connah & Son, proprietors of the well-known Petoskey fisheries have open- ed a fish house at No. 57 East Main street. Telephone No. 217 for fresh Petoskey white fish and trout. **RUPTURE** Cure guaranteed by Dr. J. H. May Jr. Easy operation, no pain, or delay in business. Cured hundreds of cures. Main office, 811 Arch St., Phila. All other houses, Fort Wayne, Ind. and Phila. of each month. 26-27

Indigestion Cured! I suffered for more than five years with indig- estion, scarcely able to retain the simplest food on my stomach. The burning sensation was almost intolerable, and my whole system was deranged. I was weak and could not sleep, and consequently more or less nervous all the time. I lost flesh and suffered all the usual depression attendant upon this terrible disease. At last, I was cured. I commenced to use Sallie's Specific. I began to improve at once. The medicine turned up the stomach, strengthened the digestive or- gans, and soon all that burning, nervous condition was relieved. I most cheer- fully bear this testimony, because there are hundreds suffering as I was, and I am sure they can be as readily healed. Take the pre- scribed dose after eating, instead of before. JAMES MANN, No. 1115 N. St. Atlanta, Ga., May 12, 1906. **Free From Malaria.** In the fall of 1891 I was taken with a severe malarial fever which prostrated me both body and mind. I was fringed after the old fashion with mercury and other mineral medicines, but with no good results. My health was shattered and my energy gone. My liver and feet would swell, and I had what every body thought was dropsy. These symptoms alarmed me, and I was ready to grasp at any remedy suggested. A friend advised me to try Sallie's Specific. I procured three bottles and commenced its use. The swelling soon subsided. I have taken the three bottles, which have made a perfect cure, and I feel like a new man today. There never was a more marvelous medicine offered to suffering humanity. It has wrought won- ders for me. LEWIS, Lee county, Ga., March 11, 1906. For sale by all druggists and commission men. Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC CO., N. Y., 117 W. 24th St. Druggist & Atlanta, Ga.
